

Dusty Prairie Ranch

32nd Annual Sale

Sunday, April 7, 2013

1:30 PM (CST)

www.dustyprairieranch.com

Welcome Friends and Valued Customers:

Sunday, **April 7th**, is our rescheduled sale date. As you can see from the photos, I've been in a hole looking for baby calves, battling Mother Nature's blizzards with little to no help, and was under the weather for 10 days. Due to these unforeseen setbacks, I moved the sale back!!! **The sale is at the Ranch this year and will give you a great opportunity to see Dusty Prairie Ranch in its everyday environment!!** We will serve an Amerifax sandwich and meal. Some of you can say that I've been in a hole for years so you can thank Thomas for that photo. Or you could say my world has been a little bit upside down all year long. This past summer created challenges I've never experienced in all my years here at Dusty Prairie Ranch--the lack of rain, day after day of 100 degree weather and cows short of water all summer. To watch your crops and pasture burn up and needing to check cows almost everyday was a challenge to everybody!! Considering what Mother Nature dealt out, the cattle came through much better than I expected. Several bulls weaned close to 800 pounds and the heifers look to be some of our best ever!! With the lack of forages and quality not being very good, we changed the ration the bulls and heifers have been on this winter. They have been receiving about 80% of what they would normally eat. They seem to be growing a little less but are in excellent condition and the scrotal measurements this year are going to be the best ever!! So I know they will be ready to go to work. The heifers weighed the most ever when we Bangs vaccinated them the first part of January!!! With the corn crop being 25 to 30% of normal, the cows have had roughage to graze on--just not as much as normal. Over the years I've always said that our cows are efficient in what they eat. This year proved that to be so true!! Right now our big worry is what this next year will bring. With cattle prices being very good, and look to be good for many years to come, the best thing we can all do is save the best cows we have and be ready for the years ahead of very profitable cattle prices!!! I was at a cattle seminar this winter and they said the best way to come through this drought is to feed your way through it. We've all spent too many years building our cow herd to be how we want it. So to sell it and try to buy it back--we will never have enough years to rebuild what we already have!! Cull the most obvious problem cows and we may have to drylot some cows and feed the rest. So I don't know what this means to you; but for me it will mean **more bulls for the breeding season!!!** We can use the young bulls in the pastures and keep our old herd bulls to breed in the lots and sell the old bulls at a great price when we are done. So this may mean we will need more bulls than normal. **Just some food for thought!!** And you thought I was not thinking when I was in the hole???

When you look into the sale catalog you will see a couple new sires in DPR Mr. Justice 8141 and DPR Solution 9320. Both of these sires have special genetics to help your operation!! If you need to add some **volume, growth, size and capacity**, take a look at the Justice cattle. Whenever I've had Ruby's Lad 506J genetics I can count on getting big growthy cattle. As for DPR Solution 9320 he is the most moderate framed bull we've ever used and still sires lots of **depth, volume, rib and a great disposition!!!**

As we look forward to each year's new calf crop, just remember that I'm always willing to do what it takes to help make your operation better!! So take the time to come and look at the bulls and let's work together to get you the best bull or bulls for you!!

To end up, I would like to say that most of you have gotten to know my sons over the years; and many of you can remember Gavin talking to you about the bulls and heifers when he was only 8 or 9 years old. Well, this spring he is going to graduate from high school and start his new adventure in life!! It has been great watching him play sports and all the other school activities over the years. **Congratulations Gavin!!!**

Looking forward to seeing all of you on **April 7th at the Ranch!!**

Thanks For All Of The Support Over 32 Years!

PLEASE BRING THIS CATALOG WITH YOU SALE DAY

If you want to add thickness, volume and fleshability to your females take a close look at this TRULY MAGNIFICENT BULL. He is the most talked about bull we've ever had at this stage in his development. His steer calves at the ongoing Amerifax Association Test are the top rating pen at 129. His sons and half brothers are gaining 4.78# in our 90 day test. His first calf crop boasts an average birthweight of only 78# yet brings Mr. Thick to the top indexing sire (106.1) in our battery of herd bulls.

SAV Thunderbird 9061

SAV Thunderbird 9061 takes honors as the #1 calving-ease bull from the 2010 SAV Sale with an EPD profile second to none. His pedigree represents two of the breed's most popular and proven calving-ease sires and combines them with the maternal and production qualities of the Emblynette family. Thunderbird is a major impact, calving-ease sire for both seedstock breeders and commercial cattlemen alike.

CUSTOMER TESTIMONIALS

In February 2012 we sold our Amerifax Steers and Heifers from bulls purchased from Dusty Prairie Ranch. The 126 steers weighed 889 # and sold for \$1.44--this grossed me a grand total of \$1280 per head!!!! We only had another cut of 13 head. We had 76 heifers sell in one group that weighed 725# for \$1.44. We retained 92 more heifers at home. We are very pleased with how the cattle weighed and the uniformity of our calves!!

Tyler Harting and Family
Norton KS.

In 2010 we purchased several DPR bulls and heifers. The bulls maintained or gained weight throughout the breeding season! "That is one of the first times that has happened for me!" The heifers are some of the best disposition females I've ever had!

Roger Cloyd
Wade Ranch

"Doug... Our Dusty Prairie Ranch sired calves on a 61 Day Test following weaning gained 3.75 pounds on 88 head--which out gained our other sired calves by a .50 per head a day."

James Hentges
Jamestown, Missouri

"In 2005, 43 head of our first calf heifers all sired by Dusty Prairie Ranch Bulls and bred back to Dusty Prairie Ranch calving ease bulls--we only pulled one calf."

Rollie Stefka
Comstock, Nebraska

"Calves we get from Dusty Prairie Ranch come early and jump up and get going. The females are gentle disposition and make great mothers."

Jeff & Don Ruppert
McCook, Nebraska

"Have a DPR Big & Wide 1378 son gaining 5.65 pounds on 3.98 to 1 feed efficiency."

Polder Beef Friesins

"53 spring calves sold in one group at 736 pounds at \$1.45. Very happy how DPR genetics has made our calves more uniform!!"

Rick Smith
Winchester, Kentucky

"Doug... the two bulls I purchased at the 2007 sale have been the easiest fleshing bulls I've ever had."

Loren Bossler
Stanton, Nebraska

*"In 2005 we switched to Dusty Prairie Ranch Bulls and our calves weaned 75 pounds more than the year before and sold a whopping 102 pounds more at sale time. **These Are Real Numbers For Real Cowmen!!**"*

Bill Scheperle
Jamestown, Missouri

"We started using Dusty Prairie Ranch Bulls in 1993 and our weaning weights year after year are now over 700 pounds average."

Jim & Larry Kleffner
Brinktown, Missouri

*"Since we started using Dusty Prairie Ranch bulls, the weaning weights of our fall calves have increased over 80 lbs. Doug has worked closely with Jeannie and I to help us improve the quality of our cow herd. Because of the improvements we have experienced, we are eager to tell our friends and neighbors about the **Dusty Prairie Ranch Program.**"*

Philip & Jeannie Woods
Warrensburg, Missouri

Bull Management Tip!!

Take your young bull home sale day and hand feed him with an old cow for 30-60 days before you turn him out. This will pay you big dividends when you sort or catch your bull in the future!!

DPR

Dusty Prairie Ranch

Buyers Notes:

Remember
Quality Is
Always A Bargain!!

Dusty Prairie Ranch sale day!!

SALE TERMS AND CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Risk: All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

Announcements: Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

Breeding Guarantee: Females: Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

Bulls: Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

Options and Privileges of Return or Adjustment:

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Contract: The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
